The Florence G. Heller Professional Award

The Board of Directors of the JCC Association established the Florence G. Heller Professional Award on January 21, 1968, to honor the memory of its president and beloved leader, Mrs. Florence G. Heller. This award is presented to a professional worker at each JCC Association Biennial Convention, with the selection based on the following criteria:

1. The recipient's contribution shall stem directly from his or her professional career in agencies or programs directly related to JCC Association.
2. The award shall give recognition to contributions that enrich the totality and breadth of professional practice and knowledge.
3. Current members of the JCC Association staff shall not be eligible for the award.
4. Only one award shall be made in connection with each JCC Association Biennial Convention.
5. The award shall not be given posthumously.

We seek recommendations for the award from leaders in the fields of JCC Association's work on the local and continental levels. A jury chaired by a JCC Association leader considers all recommendations.

Winners of the Florence G. Heller Professional Award

For distinguished professional service
within JCC Association's fields of work.

1968
